10th International Public Health Summer School Medical University Graz, Austria

“Obesity, Complexity, and Public Health”

Date: 11.–13. (+14.) September, 2019

Topic: The complexity of the systems underlying the obesity epidemic presents multiple challenges for public health policy, practice and research. The aim of this summer school is to understand how to plan, implement, and evaluate effective responses to obesity and other major public health problems in the context of this complexity.

Organisers: Team of the Public Health School, Medical University of Graz

Lecturers:

Day 1: Prof. David Stuckler, Department of Sociology, University of Oxford, UK, Department of Policy Analysis and Public Management, Bocconi University, Milan, Italy

Day 2+3: Prof. Harry Rutter, Department of Social & Policy Sciences, University of Bath, UK

Day 4: Post-Summer School Hiking Tour (optional)

Proposed Venue: Graz City

Target groups: National and international students and professionals of public health and social sciences, clinicians, researchers and policy makers, health journalists, advocates and civil society representatives, members of social insurance, regional and national governmental organizations, etc.

Maximum number of participants: 30

Fees: Euro 660 (application until 30.06.2019)

Contact: Please send your CV (1 page) and a brief statement of your motivations for attending the course (max. 300 words) to: public.health@medunigraz.at
